My Dearest

was were a merry but hot party
coming home. I arrived here with Mrs Webb
Lady Campbell & Sylvia at about 11 Pm.
Michael called out to us in street & Lady C
inquired if it were a drunken man - &
Madey was on the doorstep looking well after
her holiday. Michael had brought home a
bowl of glorious blue gentians & wild
lily of the valley.

well I can't say what a joy these days
have been - You know because you feel it
too - But to get these present members
to hear & see you & and yet prize you as the

old ones did was wonderful. The
 teaching which has experience &
 proof behind it can be appraised with a
 different voice & accent than teaching which is
 only in the thinkers' brain.

When we were talking of the "bains" of yphon
 you might be pained in the way they express
 I carry out your teaching Kit-Kit; E. A. P;

Penny, Drury we forgot Devonshire - a rather
 we did not mention her. That she has pulled
 up the school to the level you always wished!

Perhaps one day you may see fit to let her
 & the musical appreciation in the college & school - one
 making up. She has the cultivation of mind & breeding for
 it & is a musician in feeling.

I enclose you Helen Pyke's little letter. She & Muriel Stead have exchanged
 addresses!! - much love & many many thanks
 Netta.

My dear Miss Mason.

I want to thank
you, and thank you again and
again, for our wonderful time
at Ambleside, and for your
very great kindness to me.

It was a time of happiness and
delight and of very real
refreshment in many ways. I

shall always remember my first
meeting with you, my first
glimpse of Scale How and all
its charm, and of your most
glorious country. It has been
a landmark in my life, and
I have come back feeling more
than ever that your work is
very wonderful and that it
will go on and grow and
grow. I know that we

have made you very tired -
and I know too that you
have made us very happy,
and I want to thank you
with all my heart for all
that you have done for us -
been to us.

Take care of yourself dear
Miss Mason - you are very
precious to us.

I send you my love and to
dear Miss Kitching.

Yours affectionately
Margaret Potcham.

Dear Miss Mason.

Thank you very much for the wonderful
and happy time you gave us all last
week. It will be an inspiration and a
joy to us all our lives. I do hope that
you are not too tired, and that you are
fairly well. When you said goodbye
to me I couldn't speak, and I am sure I
was so stupid. It was a time of vision
coming at the end of two or three very

difficult years, and I felt so grateful - and
full of longing to pass on the great good you
have given to us. We can't even thank
you in words, but we and the children
together do really thank you every day
as we go on seeing great and beautiful
things through the doors you open for us. And
now you have really taken us through some
of them yourself, and Theodore and I want
to send you so much love, and we will work hard,
From Lesley & Fr.

Dear Miss Mason.

I must just send you a few lines to tell you how very much I enjoyed your most delightful conference last week — & I very greatly appreciated the opportunity of meeting you & hearing you speak.

I think you gave the most enormous
pleasure to all the parents - It
was so delightful too, to see the
School's glorious surroundings.
I have been telling Elizabeth
all about it, and she is very
greatly interested.

Dear Miss Mason -

I must just write
a few lines to thank you
for your delightful hospitality
of last week.

The Conference has been to
me a veritable inspiration
& my visit to the practising
school a delight -

June 6th 1922.

My dear Miss Mason.

I am very much afraid
this letter is long overdue, I have
been far too long in writing to tell
you how very much we enjoyed
your hospitality and what a beautiful
Conference it made for us!

I wish one could give you an
idea of how much we appreciated
it all - but I think perhaps all
the happy faces would show you
more plainly than anything else
how entirely lovely it was to be
back again, and what good it
was doing us! .

Miss Smeeton and I were so
glad to find the country around
really green on our return, it
helped to reconcile us to the town

Which is such a dreadful one -
and now the children bring in
almost daily lovely flowers &
sprays too young to have
suffered, as most do, from the
cloak of soot and smoke.

We are looking forward to
a visit from Miss Pennelthorne
on June 26th when she will
speak to the parents, and a
few others whom we want to
interest. I hope the children
will have a Talk too, but we are
not yet sure how much time
she will be able to give us.

We have just heard from the
mother of a girl of 12 who left
last term that the ^{new} School is
much pleased with her - They

² find her up to her own age's standard in arithmetic (her weak subject) and beyond in all other work, so Miss Smeeton feels very happy. Another who left us to go to The Bolton High School (to prepare her for the bigger world of boarding school) has been put into a class where the ages range from 11 - 13 years - (she is nearly 11 years old now), and at the end of the term is to have a double remove. You know I am able to tell you these nice little things because the credit is none of mine. I have only had since last half term at school, but we hope the present pupils are going to be quite as happy in their results too! .

We do hope that you will not
be too tired after the very busy
time you have had with two
such exciting Conferences? but then
you seem to draw fresh strength
and inspiration from such work
so we should not commiserate
unduly.

Thank you again and again and
all at Scale How who recorded
you so happily for our very
good times and for the memory
of a most perfect reunion.
With much love in which
Miss Smeeton wishes to join

Yours very affectionately
Frieda Todd.
